

Texas Employers: How You Can Benefit from the Child Care Provider Expansion Initiative

Is staffing one of your business's top concerns?

The **Texas Workforce Commission's Child Care Provider Expansion Initiative** offers funding to child care businesses that will open or expand their business in a documented partnership with an employer or consortium of employers - such as you - to provide care for your employees' children.

Does your company employ working parents?

You can partner with a local childcare business who can support the child care needs of your employees, such as:

- Offering care on your company's campus
- Offering care at the provider's location
- Reserving slots for your company's employees
- Giving priority to your employee's children
- And many more options to meet your needs!
